

Community Helpers in Prep ST

This term Prep ST are learning about people who help us in the community. Prep ST have set up a Post Office where we have been busy writing each other mail to be delivered into our own personal mail boxes. We also have a Fire Station where we act out real life emergencies and fill in incident reports.

It's only week 3 but we're already so keen! We can't wait till our Community Services day in September when we'll get to meet some real life Community Helpers!
