

Chess club (Maths logic SMART group)

The chess club provides students the opportunity to learn the game of chess and develop logical thinking, imagination whilst improving their concentration. Students have the opportunity across the year to represent the school at various competitions.

Program overview:

Semester 1

Students in year 4 to 7 who have some knowledge of the game of chess commence challenges during lunchtimes in preparation for inter school competitions.

Semester 2

Students in prep to year 3 have the opportunity to learn the skills of chess from chess club members from year 4 to 7. Other new members from year 4 to 7 may also take up this opportunity.
